ACTION TAKEN REPORT

Based on above report conclusion we started practicing counseling with the weaker students repeating revising, and individual attention to each students by segregating the group of students according to their individual problems in their respective subjects.

1. We arrange the extra lab for verbal communication and also practiced for Group Discussion which helps to improve verbal skills.
2. For boosting the confidence we gave responsibility to SDC and scheduled the classes in which students practiced reading newspapers for strong vocabulary.
3. According to report we arranged extra lab for AutoCAD which plays important role in daily life for a civil engineer.
4. The necessity of knowledge of BMC and Surveying for a civil engineer is like oxygen so keeping this point in minds we arranged a Survey Camp for the students.
5. Teachers have been advised to spend more time on topics deemed to be tough
