Arya Group of Colleges hosted the **Book Release Event** of “**Electronic Voting Machines- The True Story**” written by **Dr. Alok Shukla, Former Deputy Election Commissioner of India.**

Dr. Shukla briefed the students on the development of Voting Systems in India, along with the importance of voting.

The **Chief Guest** of the event was **Mr. Shailendra Agarwal (#IAS), Add. Chief Secretary, Home and Transport Dept,** and **Guest of Honour** were **Mr. Sanjay Dixit (IAS), Commissioner, Departmental Inquiries** and **Mr. Jogaram (IAS), Deputy Chief Electoral Officer** graced the occasion.

As a country of 1.3 billion people, more than 800 million of whom are eligible to vote, India takes pride in being the “world’s largest democracy.” While everyone sits and complains about this and that, and makes suggestions that the government should change this and that, the elections come and go without half the population paying attention. The highest recorded voter turnout in India was recorded in 2014 for the Lok Sabha elections at 66.4%. That means close to half the population does not exercise their right to vote. (22-11-18)
